<sup>1.</sup> ACS 2011-2015, unless noted otherwise

<sup>2.</sup> Median values for certain aggregate regions (such as MSAs) may be estimated as the weighted averages of the median values from the composing counties.

3. 2016; Current Population Survey, unionstats.com, and Chmura; county- and zip-level data are best estimates based upon industry-, MSA-, and state-level data

<sup>4.</sup> Census 2010

<sup>5.</sup> Disconnected Youth are 16-19 year olds who are (1) not in school, (2) not high school graduates, and (3) either unemployed or not in the labor force.

<sup>6.</sup> Census 2016, annual average growth rate since 2006

# **Employment Trends**

As of 2017Q2, total employment for Taney County, Missouri was 31,470 (based on a four-quarter moving average). Over the year ending 2017Q2, employment increased 0.2% in the region.

Employment data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and imputed where necessary. Data are updated through 2016Q4 with preliminary estimates updated to 2017Q2.

# **Unemployment Rate**

The seasonally adjusted unemployment rate for Taney County, Missouri was 8.8% as of August 2017. The regional unemployment rate was higher than the national rate of 4.5%. One year earlier, in August 2016, the unemployment rate in Taney County, Missouri was 10.1%.

Unemployment rate data are from the Local Area Unemployment Statistics, provided by the Bureau of Labor Statistics and updated through August 2017.

# **Wage Trends**

The average worker in Taney County, Missouri earned annual wages of \$29,711 as of 2017Q2. Average annual wages per worker increased 1.2% in the region during the preceding four quarters. For comparison purposes, annual average wages were \$53,284 in the nation as of 2017Q2.

Annual average wages per worker data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and imputed where necessary. Data are updated through 2016Q4 with preliminary estimates updated to 2017Q2.

# **Cost of Living Index**

The Cost of Living Index estimates the relative price levels for consumer goods and services. When applied to wages and salaries, the result is a measure of relative purchasing power. The cost of living is 12.5% lower in Taney County, Missouri than the U.S. average.

Cost of Living Information											
	Annual Average Salary	Cost of Living Index (Base US)	US Purchasing Power								
Taney County, Missouri	\$29,711	87.5	\$33,961								
Missouri	\$45,659	89.3	\$51,142								
USA	\$53,284	100.0	\$53,284

Data as of 2017Q2 unless noted otherwise

Note: Figures may not sum due to rounding.

Occupation employment data are estimated via industry employment data and the estimated industry/occupation mix. Industry employment data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and currently updated through 2016Q4, imputed where necessary with preliminary estimates updated to 2017Q2. Wages by occupation are as of 2016 provided by the BLS and imputed where necessary. Forecast employment growth uses national projections from the Bureau of Labor Statistics adapted for regional growth patterns.

<sup>1.</sup> Occupation wages are as of 2016 and should be taken as the average for all Covered Employment

<sup>2.</sup> Data represent found online ads active within the last thirty days in any zip code intersecting or within the selected region; data represents a sampling rather than the complete universe of postings.

# **Industry Clusters**

A cluster is a geographic concentration of interrelated industries or occupations. The industry cluster in Taney County, Missouri with the highest relative concentration is Consumer Svc. with a location quotient of 2.61. This cluster employs 12,542 workers in the region with an average wage of \$23,243. Employment in the Consumer Svc. cluster is projected to expand in the region about 0.8% per year over the next ten years.

Location quotient and average wage data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics, imputed where necessary, and updated through 2016Q4 with preliminary estimates updated to 2017Q2. Forecast employment growth uses national projections from the Bureau of Labor Statistics adapted for regional growth patterns.

## **Education Levels**

Expected growth rates for occupations vary by the education and training required. While all employment in Taney County, Missouri is projected to grow 0.7% over the next ten years, occupations typically requiring a postgraduate degree are expected to grow 1.5% per year, those requiring a bachelors degree are forecast to grow 0.8% per year, and occupations typically needing a 2-year degree or certificate are expected to grow 1.2% per year.

Annual Average Projected Job Growth by Training Required for Taney County, Missouri

Employment by occupation data are estimates are as of 2017Q2. Education levels of occupations are based on BLS assignments. Forecast employment growth uses national projections from the Bureau of Labor Statistics adapted for regional growth patterns.

## **Gross Domestic Product**

Gross Domestic Product (GDP) is the total value of goods and services produced by a region. In 2016, nominal GDP in Taney County, Missouri expanded 0.9%. This follows growth of 6.2% in 2015. As of 2016, total GDP in Taney County, Missouri was \$2,284,635,000.

Gross Domestic Product data are provided by the Bureau of Economic Analysis, imputed by Chmura where necessary, updated through 2016.

Of the sectors in Taney County, Missouri, Real Estate and Rental and Leasing contributed the largest portion of GDP in 2016, \$459,242,000 The next-largest contributions came from Accommodation and Food Services (\$401,443,000); Retail Trade (\$227,677,000); and Arts, Entertainment, and Recreation (\$163,056,000).

Gross Domestic Product data are provided by the Bureau of Economic Analysis, imputed by Chmura where necessary, updated through 2016.

# **FAQ**

## What is a location quotient?

A location quotient (LQ) is a measurement of concentration in comparison to the nation. An LQ of 1.00 indicates a region has the same concentration of an industry (or occupation) as the nation. An LQ of 2.00 would mean the region has twice the expected employment compared to the nation and an LQ of 0.50 would mean the region has half the expected employment in comparison to the nation.

## What is replacement demand?

Replacement demand is the number of jobs required due to replacements retirements and turnover resulting from workers moving from one occupation into another. Note that replacement demand does not include all turnover it does not include when workers stay in the same occupation but switch employers. The replacement demand shown in this report may also be understated; thus, it can be taken to be a minimum measure of the number of workers who will need to be trained for the occupation due to replacements. The total projected demand for an occupation is the sum of the replacement demand and the growth demand (which is the increase or decrease of jobs in an occupation expected due to expansion or contraction of the overall number of jobs in that occupation).

#### What is a cluster?

A cluster is a geographic concentration of interrelated industries or occupations. If a regional cluster has a location quotient of 1.25 or greater, the region is considered to possess a *competitive advantage* in that cluster.

## What is the difference between industry wages and occupation wages?

Industry wages and occupation wages are estimated via separate data sets, often the time periods being reported do not align, and wages are defined slightly differently in the two systems (for example, certain bonuses are included in the industry wages but not the occupation wages). It is therefore common that estimates of the average industry wages and average occupation wages in a region do not match exactly.

### What is NAICS?

The North American Industry Classification System (NAICS) is used to classify business establishments according to the type of economic activity. The NAICS Code comprises six levels, from the %all industry+level to the 6-digit level. The first two digits define the top level category, known as the %ector,+which is the level examined in this report.

#### What is SOC?

The Standard Occupational Classification system (SOC) is used to classify workers into occupational categories. All workers are classified into one of over 820 occupations according to their occupational definition. To facilitate classification, occupations are combined to form 23 major groups, 96 minor groups, and 449 occupation groups. Each occupation group includes detailed occupations requiring similar job duties, skills, education, or experience.
