Education Levels

Expected growth rates for occupations vary by the education and training required. While all employment in the Village of Taneyville, MO is projected to grow 0.2% over the next ten years, occupations typically requiring a postgraduate degree are expected to grow 0.6% per year, those requiring a bachelor's degree are forecast to grow 0.5% per year, and occupations typically needing a 2-year degree or certificate are expected to grow 0.7% per year.

Annual Average Projected Job Growth by Training Required for Village of Taneyville, MO

Employment by occupation data are estimates as of 2018Q2. Education levels of occupations are based on BLS assignments. Forecast employment growth uses national projections from the Bureau of Labor Statistics adapted for regional growth patterns.

Industry Clusters

A cluster is a geographic concentration of interrelated industries or occupations. The industry cluster in the Village of Taneyville, MO with the highest relative concentration is Utilities with a location quotient of 5.00. This cluster employs 1 workers in the region with an average wage of \$44,606. Employment in the Utilities cluster is projected to expand in the region about 1.0% per year over the next ten years.

Location quotient and average wage data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics, imputed where necessary, and updated through 2017Q4 with preliminary estimates updated to 2018Q2. Forecast employment growth uses national projections from the Bureau of Labor Statistics adapted for regional growth patterns.

Occupation Snapshot

The largest major occupation group in the Village of Taneyville, MO is Education, Training, and Library Occupations, employing 27 workers. The next-largest occupation groups in the region are Office and Administrative Support Occupations (16 workers) and Sales and Related Occupations (11). High location quotients (LQs) indicate occupation groups in which a region has high concentrations of employment compared to the national average. The major groups with the largest LQs in the region are Education, Training, and Library Occupations (LQ = 5.10), Sales and Related Occupations (1.18), and Arts, Design, Entertainment, Sports, and Media Occupations (1.12).

Occupation groups in the Village of Taneyville, MO with the highest average wages per worker are Management Occupations (\$82,600), Computer and Mathematical Occupations (\$66,800), and Healthcare Practitioners and Technical Occupations (\$55,400). The unemployment rate in the region varied among the major groups from 3.4% among Education, Training, and Library Occupations to 6.7% among Construction and Extraction Occupations.

Over the next 10 years, the fastest growing occupation group in the Village of Taneyville, MO is expected to be Construction and Extraction Occupations with a +1.1% year-over-year rate of growth. The strongest forecast by number of jobs over this period is expected for Education, Training, and Library Occupations (+1 jobs) and Construction and Extraction Occupations (+1). Over the same period, the highest separation demand (occupation demand due to retirements and workers moving from one occupation to another) is expected in Education, Training, and Library Occupations (22 jobs) and Office and Administrative Support Occupations (17).

Data as of 2018Q2 unless noted otherwise

Note: Figures may not sum due to rounding.

1. Occupation wages are as of 2017 and should be taken as the average for all Covered Employment

Occupation employment data are estimated via industry employment data and the estimated industry/occupation mix. Industry employment data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and currently updated through 2017Q4, imputed where necessary with preliminary estimates updated to 2018Q2. Wages by occupation are as of 2017 provided by the BLS and imputed where necessary. Forecast employment growth uses national projections from the Bureau of Labor Statistics adapted for regional growth patterns.

Industry Snapshot

The largest sector in the Village of Taneyville, MO is Educational Services, employing 40 workers. The next-largest sectors in the region are Administrative and Support and Waste Management and Remediation Services (39 workers) and Construction (6). High location quotients (LQs) indicate sectors in which a region has high concentrations of employment compared to the national average. The sectors with the largest LQs in the region are Administrative and Support and Waste Management and Remediation Services (LQ = 6.42), Educational Services (5.17), and Utilities (1.33).

Total Workers for Village of Taneyville, MO by Industry

Source: JobsEQ®, Data as of 2018Q2

Employment data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and imputed where necessary. Data are updated through 2017Q4 with preliminary estimates updated to 2018Q2.

Sectors in the Village of Taneyville, MO with the highest average wages per worker are Utilities (\$45,233), Manufacturing (\$37,526), and Administrative and Support and Waste Management and Remediation Services (\$37,258). Regional sectors with the best job growth (or most moderate job losses) over the last 10 years are Administrative and Support and Waste Management and Remediation Services (+38 jobs), Educational Services (+6), and Construction (+5).

Over the next 10 years, employment in the Village of Taneyville, MO is projected to expand by 2 jobs. The fastest growing sector in the region is expected to be Health Care and Social Assistance with a +2.9% year-over-year rate of growth. The strongest forecast by number of jobs over this period is expected for Educational Services (+2 jobs), Construction (+1), and Agriculture, Forestry, Fishing and Hunting (0).

2. Median values for certain aggregate regions (such as MSAs) may be estimated as the weighted averages of the median values from the composing counties.

3. 2017; Current Population Survey, unionstats.com, and Chmura; county- and zip-level data are best estimates based upon industry-, MSA-, and state-level data

4. Disconnected Youth are 16-19 year olds who are (1) not in school, (2) not high school graduates, and (3) either unemployed or not in the labor force.

FAQ

What is a location quotient?

A location quotient (LQ) is a measurement of concentration in comparison to the nation. An LQ of 1.00 indicates a region has the same concentration of an industry (or occupation) as the nation. An LQ of 2.00 would mean the region has twice the expected employment compared to the nation and an LQ of 0.50 would mean the region has half the expected employment in comparison to the nation.

What is separation demand?

Separation demand is the number of jobs required due to separations—labor force exits (including retirements) and turnover resulting from workers moving from one occupation into another. Note that separation demand does not include all turnover—it does not include when workers stay in the same occupation but switch employers. The total projected demand for an occupation is the sum of the separation demand and the growth demand (which is the increase or decrease of jobs in an occupation expected due to expansion or contraction of the overall number of jobs in that occupation).

What is a cluster?

A cluster is a geographic concentration of interrelated industries or occupations. If a regional cluster has a location quotient of 1.25 or greater, the region is considered to possess a *competitive advantage* in that cluster.

What is the difference between industry wages and occupation wages?

Industry wages and occupation wages are estimated via separate data sets, often the time periods being reported do not align, and wages are defined slightly differently in the two systems (for example, certain bonuses are included in the industry wages but not the occupation wages). It is therefore common that estimates of the average industry wages and average occupation wages in a region do not match exactly.

What is NAICS?

The North American Industry Classification System (NAICS) is used to classify business establishments according to the type of economic activity. The NAICS Code comprises six levels, from the “all industry” level to the 6-digit level. The first two digits define the top level category, known as the “sector,” which is the level examined in this report.

What is SOC?

The Standard Occupational Classification system (SOC) is used to classify workers into occupational categories. All workers are classified into one of over 820 occupations according to their occupational definition. To facilitate classification, occupations are combined to form 23 major groups, 96 minor groups, and 449 occupation groups. Each occupation group includes detailed occupations requiring similar job duties, skills, education, or experience.
